Dear Evgeny,

Sitting in my office after a fantastic visit to Tuapse I start to realize how perfect your terminal is. Again my congratulations for the realization of this state of the art facility equipped with best proven technology. It is really an example and we learnt a lot.

Thanks again for your kind hospitality also on behalf of Mario and best regards to Valdimir and all the other members of your team. Hope you find the time to visit us in Terneuzen.

Best regards

Martin
